

Smoke Alarms

Facts

Working smoke alarms cut the chance of dying in a fire in half.

You need smoke alarms on every level of your home, in every bedroom, and outside every sleeping area.

Carbon Monoxide Alarms

Carbon monoxide is called the invisible killer because you cannot see it or smell it. CO alarms are designed to sound before potentially life-threatening levels of carbon monoxide are reached.

You need carbon monoxide alarms on every level of your home if you have gas-fueled or wood-burning appliances. To learn more, click [HERE](#).

Ohio Township Fire Department, working in conjunction with the American Red Cross, will install smoke detectors in your home.

Smoke Detectors are not guaranteed. We don't always have them available.
